Initially, it is not understood why the notice of appeal filed March 15, 2004 states that the Office action dated November 19, 2003 “finally” rejected claims 31-51, since this Office action clearly indicates that it was “non-final” (see page 1, box 2b). In any event, since the claims in this application have been “twice rejected” the appeal is deemed to be proper (37 CFR § 1.191). Furthermore, since the Appeal Brief filed May 18, 2004 withdraws claims 47-51 from appeal (see page 2, section III, line 2), this withdrawal has been treated as an authorization to cancel these claims (see M.P.E.P. § 1215.03).

Accordingly, an examiner’s amendment to the record appears below. Should the changes and/or additions be unacceptable to Applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Claims 47-51 have been canceled.

The following is an examiner’s statement of reasons for allowance:

Claims 31-46 are allowed because the references of record do not teach or fairly suggest recovering an emulsion of a lipophilic fluid of the type recited and water from a fabric, and exposing this emulsion to an absorbent matrix of the type recited in order to remove water from the emulsion, such that the lipophilic fluid is recovered. It is agreed that it would not have been obvious to one of ordinary skill in the art at the time the invention was made to combine the references of record in the manner proposed in the previous Office action, particularly since Hasse employs fundamentally different absorbent materials (i.e. clay or clay-carbon), and Freeman fails to relate to any aspect of a fabric treatment process.

Any comments considered necessary by Applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
